## Three rockets hit Ashkelon area

At least three rockets launched from Gaza landed in open fields in the Ashkelon Beach Regional Council on Thursday afternoon, causing no casualties or damage, according to the IDF Spokesman.

The rocket alert system also detected a fourth launch, but security forces could not immediately discover whether the rocket landed in Israeli territory.

Since the start of 2012, more than 40 rockets have been fired at the South from Gaza, the IDF said.
